Discover how you can play the lottery for free!

If you're anything like I was when someone first sent this ebook to me, you're probably feeling quite sceptical right now. That's fine.

I know I was very cautious when I first heard I could play the lottery for free, but once I'd read the really short ebook I found myself thinking "well, it certainly makes sense. Since there's nothing to lose I guess I may as well give it a go!".

Within hours from now you could be playing the lottery for free!

By the way, it doesn't matter in which village, town, city, country or continent you live, as long as you have access to the internet and email, this works.

It only takes 2 minutes to read this entire ebook.

This is my own personal story of how I discovered this amazing opportunity.....

I was at the supermarket doing the big weekly shop when I bumped into a good friend of mine called Jane. I'd not seen Jane for weeks and you know how it is when you've not seen someone for a while. It's good to catch up on what's been happening.

Anyway, we made some small talk. You know the sort of thing - "How's the baby? How's work? Hasn't it been dry this Summer?" and so on. I also happened to notice the queue at the Lottery terminal and said to Jane, "I can't believe so many people are still wasting their money buying lottery tickets!".

Jane surprised me when she commented "It just goes to show how popular the lottery is. Mind you, I've been playing for months and it doesn't cost me anything, so I can't complain"

I've always regarded the lottery as nothing more than another form of tax, but when she said she played for free I was very intrigued. I thought to myself - if it really is possible to play for free, then it would be stupid not to!

So I asked "How do you play for free?".

"It's actually really simple," she said, "a few months back a friend of mine asked if I'd like to know how to play the lottery for free? To which my reply was "Sure, tell me more!". She sent me an ebook by email and said "just do what it says in the book!". So I did and sure enough two days later I was playing the lottery for free. And I haven't paid a penny for a ticket since!".

"Wow! send me a copy".

That evening I checked my email and sure enough Jane had sent me the ebook.

It's exactly the same ebook you are reading right now. It all seemed so easy.

Just like Jane I followed the **5 simple steps** and within 48 hours I too was **playing the lottery for free.**
